To Whom It May Concern:

Re: **Crossection, Inc.**

Please be advised that Outback Steakhouse has been working with Crossection, Inc. on many Outback Steakhouse, Carrabba's Italian Grills, Bonefish Grills and Flemings Premium Steakhouse projects since 1998. All of these projects have been for either newly constructed or remodel restaurants in various areas throughout the Middle Atlantic area. Crossection is very mindful of the detail that goes into every restaurant.

We have found Crossection, Inc. to be both cooperative and professional throughout the entire construction process. They always execute their work in a competent manner and displayed a comprehensive knowledge of their trade for an exceptionally competitive price.

You will find Crossection, Inc. to be honest, reliable and totally qualified in all respects. Outback Steakhouse highly recommends working together with Crossection, Inc.

Sincerely,  
**Outback Steakhouse, Inc.**
